## EDUCATION

---

<b>M.S. Computer Science (GPA: 3.72/4.00)</b>	May 2018
<i>Old Dominion University</i>	<i>Norfolk, VA</i>
<b>B.S. Industrial Engineering (GPA: 3.00/4.00)</b>	May 2014
<i>Southern Illinois University Edwardsville</i>	<i>Edwardsville, IL</i>
<i>Istanbul Technical University</i>	<i>Istanbul, Turkey</i>

## RELEVANT COURSE PROJECTS

---

### Web Programming

Created a Stack Overflow clone using PHP, Javascript, Bootstrap, and SQL.

### Mobile Sensing in Smart Cities

Developed a watchOS app to collect accelerometer and gyroscope data using Swift 4. Data is used to detect whether a user is running or cycling or swimming. Paper accepted to WearSys2018.

### App Development for Smart Devices

Created a friend finding Android app that connects users based on preferences and location. It is written in Java and utilizes Firebase, Facebook API, and the Google Maps API.

## WORK EXPERIENCE

---

<b>Full Stack Developer</b>	September 2017 - April 2018
<i>Old Dominion University - Center for Learning and Teaching</i>	<i>Norfolk, VA</i>
Improved school's online learning platform. Architected new workflows, back and front end, using JavaScript, PHP, Twig, MongoDB, Docker, and Git. Mainly worked on forms that let instructors create and manipulate quizzes. Occasionally filled in for the scrum master.	

<b>Head Teaching Assistant</b>	August 2016 - May 2017
<i>Old Dominion University - Department of Computer Science</i>	<i>Norfolk, VA</i>
CS 250 - Programming and Problem Solving II (Advanced C++)	
Created new assignments and projects that teach the concepts of class, structs, lists, vectors and more. Coordinated other teaching assistants. Helped enhance the learning experience of students via office hours and weekly in-class sessions.	

<b>.Net Developer</b>	July 2014 - November 2015
<i>Amsted Rail</i>	<i>Granite City, IL</i>
Developed web applications that keep track of processes such as machine run times, and tool wear.	

## SKILLS

---

<b>OOP:</b>	C++, Python, Java
<b>Web:</b>	PHP, C#, JavaScript, jQuery, AngularJS, Bootstrap
<b>DB:</b>	SQL, NoSQL
<b>Other:</b>	Linux, Git
<b>Life:</b>	Fluency in Turkish, maintenance and repairs on cars and motorcycles
